**JEEVATMA**

I. Jeev Atma	Steps 61 to 80
II. SELF	Steps 81 to 120
III. SELF	Steps 121 to 140

**STEPS 61 TO 65**  
**JEEV / HUMAN BEINGS**  
**STEPS 61 TO 65**

**61**

**JEEV**

1. 'जीव' Jeev dominantly is 'Living Being'.
2. Distinctively, it is an individual 'Living Being'.
3. Each sadhka approaches himself as "जीव' Jeev' .
4. Ultimate features of 'life' within human frame focus upon the distinctive values of 'जीव' Jeev' .
5. It is of values different than that of Panch Mahabhut / five basic elements.
6. It is also of values different that that of the organs of human body.
7. It is also a step ahead of all the sensory domains.
8. So it is, as well a step ahead of intelligence domain or consciousness domain.
9. It as well is also ahead of aahamkar / ego.
10. This way Antakaran (manas, budhi, chit and ahankar, all together) is a step behind 'जीव' Jeev' .

**62**

**HUMAN BEINGS**

1. All human beings are living as 'जीव' Jeev' .
2. It is the common ratio of living being which indicates a lead us to 'जीव आत्मा' Jeev atama / 'soul', individually expressing as SELF of individual Living Being(s).
3. The existence of every Living Being(s) is there because of individual SELF.

4. It is the individual SELF of 'जीव आत्मा' Jeev atama / soul which makes individual existence within human frame as of characteristically distinct living phenomenon.
5. Index of this characteristically distinct phenomenon culminates as individual antakaran / ultimate four fold support of manas (mind), budhi (intelligence), chit (consciousness) and aahamkar (ego).
6. Sadkhas approach their antakaran sequentially starting with their manas (mind).
7. It is a second step at sadkhas approach their budhi (intelligence).
8. Intelligence field is the core of the sensory domain.
9. A step ahead, the consciousness domain is at the center of in the intelligence field.
10. Ultimately, it is the aahamkar, ego which becomes the index of antakaran / ultimate existence support of individuals.

### 63

#### HUMAN FRAME

1. Human frame is a compactified multi layered set up.
2. Its predominant three states are designated and known as sathul sharir (mundane body), shukasham sharir (subtle body) and karan sharir (casual body).
3. The pre dominant features of these three states of human frame run parallel to Earth, Water and Fire elements.
4. These three states, in the light of the antakaran supports may be taken as running parallel to the first three folds namely, the Sensory domain of

manas, intelligence field of budhi and consciousness domain of chit.

5. A step ahead is the amalgamated state of these three states together transiting and transforming into a creative state parallel to the fourth element and also parallel to the fourth fold of antakarn i.e. aahamkar / ego.
6. Sadhkas shall permit their transcending mind to remain in prolonged deep of trans to glimpse the transcendence state ahead parallel to the space element and parallel to the individual (self).
7. It is the phase and stage where from the individual SELF takes over.
8. The existence phenomenon this step onwards is sustainable in terms of the self referral features of the individual SELF.
9. One shall sit comfortably and permit the transcending mind to face this phase and stage of existence phenomenon.
10. And the way it of its own goes transcendental a unity state existence.

## 64

### WATER : ONE SEED

1. Earth element transits and transforms into 'water' as one seed of all earthy frames.
2. All earthy frames being of 'one seed' features makes existence phenomenon as of 'one seed source'.
3. 'Earth' as first element, a linear order element, as such accepts 'water', the second element, as

the spatial order element, as the 'seed source' / source origin.

4. This, as such, needs to existence phenomenon, being of a manifestation layer format (1, 2, 3, 4).
5. Beginning with linear dimensional order and reaching at a spatial dimensional order origin, would be the first coverage phase of the existence phenomenon.
6. The spatial dimensional features of the origin would be a start for the next phase of existence phenomenon.
7. It is a micro state existence phase.
8. It is an inward transcendence of steps 4-space to 5-space / reaching base of the origin, 5-space to 6-space / a self referral format of the transcendental base.
9. This way (1, 2, 3) / Triloki and (4, 5, 6) / Trimurti, become the sequential format of macro state and micro state existence phases.
10. These are the linear order / Earth element and spatial order / water element phases and stages of existence.

## 65

### LIGHT : END SEED

1. The macro state / earth element existence phase is of the format of the manifestation layer (1, 2, 3, 4) with water element as one seed of all earthy frames.
2. The micro state / water element existence phase is of the format of the manifestation layer (4, 5, 6,

- 7) with fire element as the end seed of all earthy and watery frames.
3. Water as one seed of all earthy frames and fire as end seed of all earthy and watery frames are the sequential steps.
4. This as such would take up till the Braham Randra / seat of sixth chakra where Sun light would take care for ahead casual state body.
5. Light as end seed makes it possible for the Being to take off from the Braham Randra.
6. This take off of the Being is along with the casual body.
7. Casual body is also designated as the Antakaran / ultimate supports base of the existence phenomenon.
8. It would be blissful exercise to chase Light as the end seed of the ultimate supports base of the existence phenomenon.
9. From Earth to Water and from Earth to Fire are phases and stages of existence phenomenon which deserve to be chased in this sequential order itself.
10. One shall sit comfortably and permit the transcending mind to remain in prolonged deep trans to have a chase of the existence phenomenon of its all, macro, micro and casual body states.

**HUMAN BEING / PURSHA FORMAT**  
**STEPS 66 TO 70**

**66**

**PURSHA FORMAT**

1. Being after riding the transcendental carriers of the Sun light goes transcendental and in the process the existence phenomenon of human beings transits and transforms as of Pursha format.
2. Macro, micro, casual and pursha formats are in that sequential order.
3. It is this sequential order of linear, spatial, solid and hyper solid order.
4. Macro state existence is of linear order and micro state existence is of spatial order.
5. Casual state existence is of solid order, while the pursha state existence is of hyper solid order.
6. This sequential order of its all four steps is of the manifestation layer format (3, 4, 5, 6) / (3-space, 4-space, 5-space and 6-space).
7. It would be blissful exercise to chase this manifestation layer format, starting with 3-space as its first / dimension fold.
8. Further it would be a blissful exercise to chase transition and transformation from 3-space in the role of dimension to 4-space in the role of boundary.
9. A step ahead, further it would be a very blissful exercise to chase the transition from 4-space in

the role of boundary to 5-space in the role of domain.

10. Finely it would be very blissful exercise to have a chase of transition from 5-space as a domain to 6-space as origin.

## 67

### CREATIVE DIMENSION

1. A step ahead of (3, 4, 5, 6) format is the manifestation layer format (4, 5, 6, 7).
2. Here 4-space is in the role of dimension fold.
3. As such this manifestation layer format (4, 5, 6, 7) is of creative dimension.
4. One shall sit comfortably and permit the transcending mind to chase the transition from mundane dimension set up (3, 4, 5, 6) to creative dimension set up (4, 5, 6, 7).
5. The mundane dimension (3-space) leads to transcendental domain (5-space).
6. However the creative dimension (4-space) leads to the self referral domain (6-space).
7. 4-space, itself being a four spatial dimensions set up.
8. As such this set up shall be leading to the features and order of value  $2 \times 4 \times 6$ .
9. While on the other hand mundane dimensional set up leads to features and order of values  $1 \times 3 \times 5$ .
10. This being so, it would be very blissful exercise to chase the transition and transformation from mundane dimensional set up to creative

dimensional set as transition and transformation from artifice 15 to artifice 48 as of the range  $48-15=33$ .

## 68

### SPATIAL ORDER

1. The linear order of the mundane dimension works out the artifice value 15.
2. The spatial order of the creative dimension works out the value of the artifice 48.
3. The transition and transformation gap of the value of artifice 33, is of the features of the three dimensional frame splitting into a pair of three dimensional frames together coordinating the split of a sphere into a pair of hemispheres.
4. It is this feature of the spatial order, which deserves to be comprehended and imbibed fully.
5. It is the transition from linear order to spatial order which provides a break through from the features and order of Triloki and attains the features and order of Trimurti.
6. This transition from linear order to spatial order is infact a transition and transformation from the phase and stage of seventh geometry of 3-space to the eight fold solid boundary set up of hyper cube 4.
7. It would be blissful exercise to chase this transition and transformation as transition and transformation from artifice 7 to artifice 8.
8. Further it would be relevant to note that while (-1) space plays the role of (+1) space, on the other hand 0-space plays the role of 2-space.

9. Further It would be relevant to note that it is this difference of 1-space leading to (-1) space and 2 space leading to 0-space, which makes the parallel flow of the sequence of odd dimensional spaces and the sequence of even dimensional spaces.
10. It would be blissful exercise to chase the parallel flow of odd dimensional spaces and even dimensional spaces.

**69****BLACK FIRE**

1. Earth, water and Fire are in that sequence and order.
2. This sequence and order is parallel to the linear, spatial and solid order.
3. In reverse order this sequence and order would be Fire, water and Earth.
4. As such a reach from Fire back to water, in the context of the Fire is designated as reaching from white Fire to black Fire.
5. As such water becomes the black Fire.

5. On its way back, starting with Sun as step 1, Space as step 2, Air as step 3, Fire as step 4 and water as step 5, the Earth would be at sixth step.
6. This feature would get expression as (6, 5, 4, 3, 2, 1), within orb of the Sun as a six steps long measuring rod of Pursha format.
7. It is this feature which is carried by the transcendental carriers of Sun light in its both orientations (6, 5, 4,3 2, 1) and (1, 2, 3, 4,5, 6).
8. It is this feature, which of its own transits and transforms Pursha format into Purshotam.
9. Pursha (3, 4, 5, 6) / (6, 5, 4, 3) to Purshotam (6, 7, 8, 9) / (9, 8, 7, 6) is a self referral phenomenon.
10. One shall sit comfortably and permit the transcending mind to be phase to phase with this self referral phenomenon of Pursha to Purshotam range.

3. The transcendental value at each step of value and order of artifice  $15 = 1 \times 3 \times 5 = 1+2+3+4+5$  would be available.
4. It would be blissful exercise to chase this phenomenon of transcendental values at each step of flow path, otherwise being of split values (6, 9), (7, 8), (8, 7) and (9, 6).
5. Each of these splits deserve to be chase for their complete comprehension and for imbibing of their values.

2. Manas presides over the sensory domain.
3. Sensory domain is the essence of five basic elements manifesting human frame.
4. Taste, touch, smell, hearing and seeing are the five fold expressions of sensory domain.
5. It would be blissful exercise to chase transition and transformation of sensory domain to intelligence field.
6. This transition and transformation chase is to be parallel to five fold expression of sensory domain.

2. Intelligence field is created at the core of the sensory domain.
3. Sensory domain is presided over 'BEING'.
4. The intelligence field is presided over by the 'SELF'.
5. It is the inherent transcendental process which is at the base of transition and transformation of sensory domain into intelligence field.
6. One shall always remain conscious of this transition and transformation process of sensory domain into intelligence field.
7. Individual sadkhas sadhna has a distinct role to play in this transition and transformation process.
8. This individual sadkhas sadhana successfully accelerates the transition and transformation process for the sensory domain into intelligence field as that the transcendental order is at the base of this process.
9. It would be a blissful exercise to remain conscious of this transition and transformation process.
10. One shall sit comfortably and permit the transcending mind to remain in prolonged deep trans to be face to face with this transition and transformation process.

**84****CHIT**

1. At center of the intelligence field is the seat of consciousness domain.
2. Like transition and transformation process of sensory domain into intelligence field, there is also a distinct process of transition and transformation for the intelligence field into a consciousness domain.
3. While the transcendental order is at the base of transition process for transformation of sensory domain into intelligence field, there is self referral order at the base of transition process for transformation of intelligence field into consciousness domain.
4. Both transcendental order and self referral order are inherently built in the transcendental carriers of Sun light.
5. It is these features of transcendental carriers of Sun light, which make them unique.
6. It is this unique potentialities of the transcendental carriers of Sun light that the Being after its take off from Brahm Randra and riding the transcendental carriers, fulfills the Being not only with the transcendental values which belts the Triloki seal of 'BEING' but also the Being get fulfilled with the self referral values which transforms the Being into individual Self of Being.

8. For it, one shall continuously remain in trans.

9. It is this blissful glimpse of Brahman phenomenon which makes the sadkhas as enlightened one's.
10. Ancient wisdom enlightens us as that from consciousness domain onwards, there are two fold path, one of which leads to Ego and other to liberation .

### 85

#### AHAMKAR

1. Ahamkar (ego) is the first limb of flow of consciousness.
2. The second limb of the flow of consciousness is Brahman enlightenment.
3. Sadkhas sadhana has definite role to play for consciousness flow to be along the ego channel or to be along the Brahman enlightenment.
4. One is to ever remain conscious of one's sadhana as ahead there are two distinct paths in destinies.
5. It is in terms of the ego channel that one deprives oneself of enlightenment and liberation.
6. Ego, though is an attainment but the same is of lower values.
7. Efforts naturally are to be always for higher attainments of enlightenment and liberation virtues.
8. It is the enlightenment which is to lead to liberation.
9. It is the ego which is a stumbling block on the path of enlightenment.
10. Sadkhas should always have an urge for Brahman enlightenment.

**SELF AS PRARABDH KARMAS****STEPS 86 TO 90**

86

कर्म

1. Brahman enlightenment path is settled by the Prarabdh karmas.
2. Fromm consciousness domain onwards, there are two fold sequential path.
3. First sequential path leads to ego (Ahamkar).
4. Second sequential path leads to Brahman enlightenment.
5. It is this sequential path of Brahman enlightenment which manifest as Prarabdh karmas.
6. One shall , consciously know this two fold path. Sankhya Nishtha enlightens that the next sequential term after '1 and 2' can be 3 and also the same may be as well 4.
7. The first limb is of the values 1, 1+1, and 1+1+1+1,
8. The second limb is of the values  $2^0$  ,  $2^1$  and  $2^2$ .
9. Ancient wisdom further enlightens as that the first varga consonant namely Kakara (क) has four fold manifestation format of letters artifices (र, म, ल, ह).
10. Of these the first fold (र) is also three fold (linear, spatial, solid) which manifest as (1) कर्म / sequential order (2) कर्म / actions (3) कर्म / steps,

**87****कर्म**

1. One shall be conscious of the three folds (1) क्रम/ sequential order (2) कर्म / actions (3) करम / steps,
2. The first fold of the letter (क) is of three folds, namely (1) क्रम / sequential order (2) कर्म / actions (3) करम / steps,
3. As such to cover this fold, one is to be sequentially through these three folds. Namely (1) क्रम/ sequential order (2) कर्म/ actions (3) करम / steps,
4. Second of these three sub folds of the first fold of (क) namely which manifests as (कर्म) / actions, as such becomes very important.
5. For these (कर्म) / actions, the sequential order is inherently built in it.
6. As such, sadkhas shall every remain conscious of the sequential order (क्रम) of the actions (कर्म).
7. These actions (कर्म) becomes the step (कर्म) along the two fold consciousness flow path.
8. The steps (कर्म) would be determinant by the actions (कर्म).
9. Therefore, if one is put along the ego path, one is to be destined like that.
10. And if one is set along the Brahman enlightenment path, one is to be destined like that.

**88****करम**

1. Every step (करम ) is index value of कर्म / actions.
2. These three folds of letter (र) / raif are sequential triple (˘) , (ˆ) and (र) as of linear, spatial and solid order.
3. These together are carried by the first vowel.

4. There attainment limit is the second fold letter artifice (𑀓) / makara.
5. It is the integrated stage which with second vowel as a carrier transit and transform into order and values of fourth vowel.

𑀓=𑀓 + इ

1. The integrated phase and stage of three folds of letter raif transiting and transforming into letter makara is the

phenomenon of sadkhas attaining values and order of Rishi (f"k) / seer.

2. It is a sequential step ahead of reach from carrier of second vowel to carrier of fourth vowel.
3. A step ahead would be a reach from carrier of fourth vowel to carrier of sixth vowel.
4. The jump in the process would be over the transcendental domain coverage by the carriers of fifth vowel.
5. It would be blissful exercise to chase  $\pm = j \rightarrow b$ .
6. Still further It would be blissful exercise to chase fifth vowel, namely  $y'$  as a composition  $y \rightarrow j \rightarrow b$ .
7. It would be relevant to note that the compositions  $\pm = j \rightarrow b$  and  $y' = y \rightarrow j \rightarrow b$  have a jump over letter makara.
8. It is a phenomenon of a coordination of artifices (2, 4) and artifices (3, 5).
9. It would further be relevant to note that artifices of letters raif , makara and lakara are sequential order of the values of solid order, creative order and transcendental order.
10. One shall sit comfortably and permit the transcending mind to sequentially chase the transition and transformation from first vowel to second vowel and from fourth vowel to fifth vowel with jump over the third vowel.

1. The split of compositions of fourth vowel  $\pm = j \rightarrow b$  and of fifth vowel  $y = y \rightarrow j \rightarrow b$  in the context of carrier of second vowel is parallel to the compositions of hyper cube 4 and hyper cube 5 within a spatial order creator space (4 space).
2. This, this way focuses upon the composition values and order of nine vowels being parallel to the values and order

of the Brahaman range of hyper cubes 1 to 9 within creator space (4 space).

3. As such vowels 1 to 9 shall be manifesting values and order of hyper cubes 1 to 9.
4. With this, this range of 9 vowel would be the range of Brahaman carriers.
5. Ancient wisdom enlightens us that fifth vowel of this range, being at middle of the range, is a location point of the transcendental seed within creator space (4 space).
6. With installation of the shiv Lingam within creator space (4 space), the manifested creations get fulfilled with transcendental values and order.
7. It is with this, the spatial order of manifested creations transit and transform into solid order transcendence ranges.
8. With it the first four vowels transit and transform into of three folds each as (v] v]k] vk3), (b] b]k] b3) and so on.
9. The vowels sixth to ninth, already being of spatial compositions, these acquire another fold as (, ] , 3), (vk] vk3) and so on.

4. The composition of fourth vowel  $\_ = j \sim + b$  avails the Kriyaman karmas.
5. However the composition of fifth vowel  $\_ = j \sim + b$  avails the pralabdh karmas.
6. Kriyaman Karmas avail fourth vowel carriers for seed formation in creator space (4 space).
7. The Pralabdh karmas availed fifth vowel carriers for Seed, fruit-seed cycles.
8. It would be blissful exercise to chase seed-fruit-seed cycles.
9. Seed to fruit is the attainment of the Kriyaman Karmas.
10. Fruit to seed may be the outcome of sanchit karmas (accumulated actions).

**92****SEED FORMATION**

1. Seed formation process deserves to be chased.
2. It is the process of a split of a three dimensional frame into a pair of three dimensional frames.
3. It is a process of the values and order of artifice 33.
4. It is the process of the backbone / spinal cord.
5. For chase of seed formation one is to chase the expression range of transition and transformation of seed into fruit.
6. Further this chase shall be of the range from fruit to seed.
7. It is the complete cycle from seed to fruit and fruit to seed which shall be making seed generations cycles.
8. A chase from first generation seed to the second generation seed, and ahead from second generation seed to third generation seed and so on would be making seed-fruit-seed cycles values and order.
9. Ahead of this spatial order of the creator space (4 space) is the solid order of transcendental worlds where the seed formation process shifts from dimensional order to the dimension of the dimension order itself.
10. As such It would be blissful exercise to sequentially chase the role of 3-space as dimensional order of 5-space and also the role of 3-space as dimensional order of the dimensional order of 7-space, i.e. unity state.

**93****HUMAN FRAME MANIFESTATION**

1. The human frame manifestation is a unique phenomenon of self referral domain (6-space).
2. The human frame manifestation as such is of Pursha format of creative dimensional order.
3. With these features from skull to feet, every organ of human body has manifestation along the geometric format of creative dimension (4-space).
4. With hyper cube 4 as representative regular body of 4-space, manifestation characteristics of every organ of human body shall be of 4-space manifestation format characteristics.
5. May it be the eight structural parts of the skull are 14 of the phase, 12 pairs of the chest chase are 33 of the spinal cord, each of these and all others are there because of the distinguishing features of manifestation within 4-space.
6. It would be blissful exercise to have a chase of the structural composition of cube within 4-space.
7. The different features of manifestation of cube / sphere along four fold manifestation format of creator space (4 space) would help reach at the different structural set ups for different organs of human frame.
8. Further in addition to the earthy features of human frame, the watery feature of human frame as well help appreciate the neves network of the human body.
9. Still further the firey features of human frame

would help reach at the coordination of shad chakra format of human frame.

10. And ahead, the airy features of human frame shall be leading to the transition and transformation process of the shad chakra format into dash chakra format of human frame.

## 94

### SHAD CHAKRA FORMAT

1. Shad chakra format of human frame is parallel to the measuring rod of self referral domain (6-space).
2. Self referral domain being of a creative dimension, as such the measuring rod of self referral domain as well as the shad chakras of Pursha format shall be of values and order of hyper cubes 1 to 6.
3. With this these shad chakras would be approachable as manifestation layers.
4. Shad chakras as six manifestation layers, sequentially as interval, square cube and as hyper cubes 4, 5, 6 shall be of external characteristics range (2, 4, 6, 8, 10, 12).
5. This range (2, 4, 6, 8, 10, 12) is parallel to the boundary component of hyper cubes 1 to 6.
6. Along artifices of numbers (1, 2, 3, 4, 5, 6), parallel geometric format would be of (1-space, 2-space, 3-space, 4-space, 5-space, 6-space) / (hyper cube-1, hyper cube-2, hyper cube-3, hyper cube-4, hyper cube-5, hyper cube-6).
7. Within creator space (4 space), pair of dimensions of a dimensional space, synthesis the dimensional domain  $(N+N-(N-2) = N+2$ .

8. With it parallel to the range (1, 2, 3, 4, 5, 6) there would be dimensional range (-1, 0, 1, 2, 3, 4).
9. As such the synthesis process for (-1 space as dimension shall be synthesising 1-space domain and there would be a jump over 0-space, which as such shall be providing for the inner vacuum to work as a flow channel for 1-space.
10. It would be relevant to note that 0-space as flow channel for 1-space would be like a state line being a format for the moving point and accordingly it would be a flow path for the zero space content, and like that there would be a chain of flow path for the dimensional content of range (0, 1, 2, 3, 4, 5) coordinating as a transcendental flow path through the shad chakras format of human frame.

## 95

### DASH CHAKRA FORMAT

1. Sadkhas going Brahma way attain transition from Shad chakra format to dash chakra format.
2. This transition from Shad chakra format to dash Chakra format is a transition from values of artifice 6 to values of artifice 10.
3. As  $6=1+2+3$  and  $10=1+2+3+4$ , the transition phenomenon would be a phenomenon of transition from sequential measuring rod of 3-space /  $\text{☉}$  to sequential measuring rod of (4 space  $\text{☉}$ ).
4. This in a way would be a shift from 3-space /  $\text{☉}$  in 3-space /  $\text{☉}$  to 3-space /  $\text{☉}$  in (4 space  $\text{☉}$ ).
5. As such the shift in fact would be from three dimensional frame to ten directional frame.
6. It would be blissful exercise to chase 3-space /  $\text{☉}$  within

three dimensional frame and also within ten directional frame.

7. It would further be blissful exercise to chase 3-space as domain to 3-space / ॐ in the role of dimension.
8. 3-space / ॐ in the role of dimension shall be taking to transcendental worlds (5-space / ॐ).
9. This attainment would also deserve to be chased as a ten directional frame coordinating the creative boundary of the transcendental worlds (5-space / ॐ).
10. One shall sit comfortably and permit the transcending mind to chase this phenomenon of transition from Shad Chakra to Dash Chakra format.
