List 1 Different aspects of Vedic Mathematics

Aspect 25
Existence within framed domain

EXISTENCE WITHIN FRAMED DOMAINS

Shri Vidya Kshetra is **transcendental domain**. **A stage prior to it** is the **existence within framed domains** of manifestation format.

Our existence within body is of this phase and stage of existence **within framed domains**.

There happens a **transition** from it to the transcendental domain.

The **intelligence field** created by **mind** acquires **transcendental values** and features.

It is of the format of **Antakran**, the **ultimate supports**, namely: *Mann* (Mind), *Bhudhi* (Intelligence), *Chit* (Consciousness) & *Anhkar* (Ego).

Ved is *Aporshiya*. It is a transcendental state. It transcends from the **Porshiya** state.

Vedic systems workout this transition along the unified format of **Sankhiya Nishta & Yoga Nishta**.

It is of format feature of **interlocked artifices of numbers and dimensional frames**.

It has many **characteristics**, of which the prominent are, parallel with the processing steps of Ganita sutras & Upsutras, and the same deserve to be comprehended and imbibed, in the **sequential order** of the **Ganita sutras and upsutras** of integrated format.

The **gaps** between the consecutive pair of sutras being **bridged** by the corresponding upsutras.

Today our **focus** is remained upon some of most important of them.

One shall sit comfortably and to permit the transcending mind to glimpse and imbibe the same.
