NUMBER VALUES FORMATS STEPS

There is a **Fundamental Unity** of **Human Mind**. Let **modern mind** be parallel with **Ancient Wisdom** preservations of number values steps for chase of **higher spaces sealed at origin** of 3-space (physical / solids / Earth / linear order space).

Number value format (NVF)

NVF (A) = 1, NVF (B) = 2, NVF (C) = 3,, NVF (Z) = 26 makes numbers values range 1 to 6 as number values format for 26 letters alphabet A to Z.

NVF of words of Alphabet A to Z

NVF of a word of alphabet A to Z is the summation value of NVFs of individual letters of the word.

Illustratively the word '**WORD**' is of

$$\begin{aligned} \text{NVF (WORD)} &= \text{NVF (W)} + \text{NVF (O)} + \text{NVF (R)} + \text{NVF (D)} \\ &= 23 + 15 + 18 + 4 = 60 = \text{NVF (FOUR)}. \end{aligned}$$

Chase of higher spaces sealed at origin of cube (3-space body)

NVF (CUBE) = 31 which is 1-space as dimension, 3-space as domain, a linear order 3-space set up. Structural components of cube are 8 corner points, 12 edges, 6 surfaces, 1 volume, 3 axes, 1 origin.

Formulation FIRST as NVF (FIRST) = 72 = NVF (ORIGIN) preserves the first step chase as 'ORIGIN' of 3-space.

Formulation (SECOND) as $NVF (SECOND) = 60 = NVF (FOUR)$ preserves the second steps chase as 4-space, at origin seat.

Formulation THIRD as $NVF (THIRD) = 59 = NVF (SOLID)$ preserves the third step chase as 'solid' / domain fold at origin seat.

Formulation FOURTH as $NVF (FOURTH) = 88 = NVF (VOLUME)$, preserves as that volume is to be chased at origin seat.

Formulation FIFTH as $NVF (FIFTH) = 49 = NVF (AXES)$ preserves as that axes are to be chased at origin seat.

Formulation SIXTH as $NVF (SIXTH) = 80 = NVF (CREATOR)$ is to be chased at origin seat.

Formulation SEVENTH as $NVF (SEVENTH) = 93 = NVF (ENTITY)$ to be chased at origin seat.

Formulation EIGHTH as $NVF (EIGHTH) = 57 = NVF (SLEEP)$ be chased at origin seat.

Formulation NINTH as $NVF (NINTH) = 65 = NVF (CENTER)$

A reach from origin back to center of the cube makes a complete range of chase of space sealed at the origin at center of the cube. Let us be parallel with these steps. **NVF (TENTH) = 67 = NVF (WATER)** takes from Earth to Water.
