Manuscript – 8 Vedic Systems Reach at values

SECTION-1, PROCESSING STEPS PROCESSING STEP-1, INITIATION POINT

1. Vedic systems had their unique methodology to reach at values of knowledge.
2. This methodology is unique because of the inherent features of processing steps of Vedic system.
3. The start with step, namely the first processing step is of features of “Initiation Point”.
4. The initiation point of processing is the basic value of processing system , as well as of the Vedic systems on the whole as well.
5. The initiation point, in a way settles the reach of the processing itself beginning with such initiation point.
6. The initiation point may be from the available “ affine state” , or the same may be in the context of “ Manifested State”.
7. The manifested state presumes the existence of affine state.
8. The affine state gives urge for manifested state.
9. One illustrated situation which may help glimpse these features may be of a point and of a structured point.
10. It may bring us face to face with “ 0 as 0 and 0 as 1 “.
11. 0 as a point of 0 space , and 0 as point of 1 space may also help us glimpse the features of affine and manifested state set ups.
12. 0 space point as of value 1 and 1 space point as of value, 1, are the situations which may also help us glimpse differentiating , as well as , parallel values of situations for coordination of affine state as format of manifested state .
13. And the other way round as well , manifested state carrying the affine state values in the positions of sequenced constituents of manifested state.
14. One may have a pause here and take note that the placement position and sequential interlinking of placement positions are a pair of two distinct features and values .
15. One may have a pause here and permit the transcending mind to glimpse and imbibe these features and values of affine manifested states being distinct of each other as well as of parallel existence.
16. Still further the parallel existence interlinking of affine state positions vis-à-vis sequential interlinking of the position deserve to be comprehended well for their thorough appreciation and complete imbibing to acquire deep insight and enlightenment of this existence phenomenon of affine manifested state existence.
17. Such an initiation, inherently shall be bringing us face to face with the dwelling status as of positional placement feature and also as of interlinking of the positional placements.

18. One may have a pause here and permit the transcending mind to glimpse and imbibe the set up of a line as a set up of the point.
19. One may have a pause here and take note that this shall be making the set up of points of a line which would inherently apply one space structure for such point,.
20. Now One may have a further pause here and take note that this set up of a line as a set up of points shall be providing a format for the moving point .
21. This will help us comprehend and appreciate a continuous existence phenomenon of the format of a line.
22. It also shall be bringing us face to face with the sequential position attainment by a moving point along the format of a line.
23. The positional placement , as a static state, and sequential positional attainment by a moving point, as such shall be bringing in the static and dynamic features values for the common point.
24. One may have a point here and take note that the continuity of the format of a line, that way shall be emerging of such a pair of features values .
25. And it is this this pair of features values of continuity of the format of a line, which deserves to be comprehended well and to be thoroughly appreciated.
26. It is with imbibing of these features values of continuity format of a line, one may be acquiring insight and enlightenment about initiation of working with points of such status features values.
27. One may have a pause here and take note that the points of this feature status values inherently bring in a spatial order .
28. One may have a pause here and take note that spatial order is of the format accepting a pair of axis.
29. One may further have a pause here and take note that $0 \times 0 = 0 = 0 \times 0 = (-0) \times (-0)$.
30. This will further bring us face to face with the existence phenomenon of triple values (-0,0,+0) , and all the distinct , as well as all the equal and both these features being simultaneously available .
31. One may have a pause here and take note that synthesis value of a pair of axis of 0 order , namely (0,0) leads to value (2).
32. This initiation, this way , shall be bringing us face to face with 0 order set up, which shall be creating spatial format (2 space set up) .
33. One may have a pause here and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe the format and features and emerging values of such initiation point of processing systems (Vedic System)
34. One may further have a pause here and take note that such initiation shall be taking us to 0 order , a step prior to linear order.
35. The processing initiation with 0 order structuring spatial set up , as such of the reach of value 20, which avails pair of digits(2 x 0) coordinated parallel to the format (2 space as domain, 0 space as dimension) .
36. One may have a pause here and take note that transcendental code value of formulation Ved is “ 20”.

37. One may further have a pause here and take note that value 20 permits reorganization as $20 = (0+1+2+3+4) + 0 + (0+1+2+3+4)$, which is parallel to transcendentals union of a pair of 0 order transcendental ranges namely $(0,1,2,3,4)$ and $(0,1,2,3,4)$
38. One may further have a pause here and take note that 2 space as spatial dimension gets interlinked with transcendental origin (5 space as origin).
39. Further as that 2 space has 5 geometries range and parallel to it there are 5 versions of hyper cube 2/square.
40. Still further as that 5 space accepts 11 geometries range and parallel to it, there are 11 versions of hyper cube 5.
41. One may have a pause here and take note that the value “ 11”, as such has a role to play to structure and to transform the affine state into manifested state, as much as that $20 + 11 = 31$ shall be leading us to synthesis of a pair of linear order transcendental ranges.
42. Further $20 - 11 = 9$ shall be leading us to synthesis value of a pair of negative linear order transcendence ranges.
43. In fact on e shall be sequentially having manifestation of reach on either side of 0 order set up of value 20 which shall be taking on one side as 20, 31,39,53, --- . and on the other side it shall be leading us to $(20,9,-2, -13, -24, -35, ---)$.
44. One may have a pause here and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse this phenomenon of sequential range of manifestation of affine states .

25. Centre is point of domain (volume) of cube /hyper cube 3.
26. Centre of the cube is also a seat of origin (fold) of hyper cube 3.
27. One may have a pause here and take note that centre of cube as point of volume of cube is of linear order.
28. While at the same time, centre of the cube being the point of origin space of hyper cube 3 , it is of the features of spatial order (2 space in the role of dimension of 4 space).
29. One may further have a pause here and take note that the cube splits into 8 sub cubes, with inner most corners of all the sub cubes accepting common placement at centre of the cube/origin of hyper cube 3.

11. The spatial boundary of cube is a set up of six surface plate which along the triple values format (-1, 0, +1) gets organized as two sets of 3 surface plates each.
12. One may have a pause here and take note that this organization format helps organized 7 versions of cube and parallel to it 7 geometries range of 3 space as 7 signatures range (-3, -2, -1, 0 , +1,+2, +3).
13. The organization of domain fold of 3 space domain along triple values format (-1, 0, 1) leads to (-1^3 , 0^3 , 1^3 which permits reorganization again as (-1, 0, 1).
14. One may have a pause here and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe the features of this triple values format organization which amounts to super imposition of the dimension fold values upon the domain fold values as in both cases the values emerge to be (-1, 0, 1) .
15. The chase of origin fold which is of the spatial order 4 space, as well shall be bringing us face to face with the situation as that (-1 x -1, 0 x 0, 1x 1) which is equal to the values triple (1,0,1).
16. One may have a pause here and permit the transcending mind to glimpse and imbibe the format and features of organization triple (1, 0,1) which as such shall be bringing us face to face with following values and virtues of this organization;
 - i) Firstly as that (1,0,1) is parallel to middle point of line being of value 0 , which will bring to focus the role of dimension of dimension (of 2 space).

- ii) Further, it also shall be focusing upon the middle point as the bending point making the set up as of a pair of halves and that way the working rule to be to work with only one of the halves.
17. One may have a pause here and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse format and features of organizations of dimension , domain, boundary and origin folds of cube/hyper cube 3.

SECTION-1, PROCESSING STEPS

PROCESSING STEP-4, SPATIAL BOUNDARY TO SPATIAL ORDER AND SOLID DOMAIN TO SOLID ORDER

1. Let us revisit the set up of cube/hyper cube 3.
2. Hyper cube 3 is a four fold set up of linear dimension, spatial boundary, solid domain and creative (4 space) origin.
3. The creative (4 space) origin has transcendental (5 space) base.
4. Creative origin is of spatial order (2 space in the role of dimension).
5. Transcendental base is of solid order (3 space as dimension)
6. 1 space as dimension structures 3 space as domain.
7. 2 space as dimension structures 2 space as domain.
8. 3 space as dimension structures 5 space as domain
9. Spatial boundary (2 space as boundary) , structures 4 space of spatial dimension (2 space as dimension).
10. One may have a pause here and take note that this brings to focus role of 2 space as boundary and as well as of 2 space as dimension.
11. Likewise 3 space as domain structures 5 space as base.
12. This brings to focus a role of 3 space as domain and 3 space as base.
13. Let us revisit the set up of cube/hyper cube 3.
14. Cube is a 3 space domain enveloped by 2 space boundary.

15. This simultaneous manifestation of 3 space content as domain and 2 space content as dimension deserves to be comprehended well.
16. The simultaneous chase in terms of 2 space in the role of boundary and 3 space in the role of domain shall be bringing us face to face with the role of manifested bodies.
17. One may have a pause here and take note that square is of the format of hyper cube 2.
18. Cube is of the format of hyper cube 3.
19. Further as that hyper cube is a format of four fold manifestation layer.
20. Accordingly square and cube accept the common manifestation format.
21. The common manifestation format of dimension fold, boundary fold, domain fold and origin fold means the simultaneous play of four consecutive dimensional spaces (contents).
22. One may have a pause here and take note that the availability of 5 consecutive dimensional spaces, as such shall be leading to the set up of a pair of hyper cubes format.
23. Illustratively the transcendence range (1,2,3,4,5) shall be leading to the pair of four fold manifestation layers (1,2,3,4) and (2,3,4,5).
24. One may have a pause here and take note that the reach from the four fold manifestation layer (1,2,3,4) to the next manifestation layer (2, 3,4,5), will focus upon the second manifestation layer (2,3,4,5) shall be helping us glimpse and imbibe the roles of spatial order structuring creative space (2,4) and solid order shall be structuring transcendental domain (3,5).

28. Further , it also would be blissful to take note that TCV value of formulations pair (Verga and Ghan) are equal to the summation value of four fold manifestation layer of hyper cube 4 (2+3+4+5), which is further parallel to the creation format of idol of Lord Brahma, Creator of the Supreme, the presiding deity of Creator's space (4 space).
29. It would be a blissful exercise to chase transition from the set up of hyper cube 2 to the set up of hyper cube 3.
30. Vedic system work out whole range of manifested creation along the spatial order format of Creator's space.
31. This chase, firstly is of the format and features of four fold manifestation layers sequence.

34. Manifestation and transcendence through manifestation are the pair of processes of Vedic system which deserve to be comprehended well and to be thoroughly appreciated to imbibe them completely to acquire deep insight and proper enlightenment.
35. These processing features of Vedic systems focus upon space content in different roles making higher space content enveloped with in lower space content domains in the role of boundary.
36. With it the chase at boundary (fold) , that way though being of lower order than that of domain fold but the boundary fold space, in its another role as dimension fold shall be leading to higher dimensional order than that of the domain itself.
37. Illustratively cube accepts spatial boundary .
38. A shift from the role of 2 space as boundary to 2 space as dimension of 4 space shall be leading us to a step ahead of 3 space domain set up.
39. It is this feature which deserves to be comprehended well.
40. With working at the boundary and transiting there from to the role of dimension is the value of the Vedic systems, which will help transcend from given domain to the next order domain.

43. This shall be leading to format of features of a split of a three dimensional frame in to a pair of three dimensional frame of half dimension
44. This split, as such shall be releasing four space at the origin.
45. One may have a pause here and take note that it shall be bringing us face to face with the phenomenon of pair of 3 dimensional frame of half dimension, shall be leading to set ups of 8 sub cubes each.
46. One may have a pause here and take note that cube accepts 3 dimensional frames of half dimensions in each of its 8 corner points.
47. Further as that the centre of the cube as the seat of origin , and hence of 4 space becomes the format and features of hyper cube 4 as 4 space domain enveloped with in solid boundary of 8 components.
48. One may have a pause here and permit the transcending mind to glimpse and imbibe this format and features of this split phenomenon .
49. Spatial order of 4 space in the role of origin because of feature of spatial order as that $2 + 2 = 2 \times 2 = (-2) \times (-2)$ together with the dimension of dimension order thereof of value $0 + 0 = 0 \times 0 = (-0) \times (-0)$ will help us glimpse further the parallel simultaneous phenomenon of synthesis of dimensional frame.
50. One may further have a pause here and take note that 5 space (transcendental domain) plays the role of origin of 4 space itself and the

- super imposition of solid order upon transcendental domain leads to the value $3 + 5 = 8$.
51. With it this moment by moment phenomenon of split and synthesis of solid dimensional frame shall be focusing upon the transcendental phenomenon happening continuously at origin /centre/middle placement of the format (-1, 0, 1) .
 52. As such Sadhakas urging to glimpse and imbibe the values and virtues of Ganita Sutras of 16 Sutras range shall be undergoing through the discipline of Yoga by doing Sanyam at the transition point of range in between that of Ganita Sutra 8 , (as the end Sutra of first half) and Sutra 9 (as first Sutra of the second half) .
 53. One shall sit comfortably and permit the transcending mind to chase this range of triple phases of values (16 ,17,18) parallel to 16 components of hyper cube 8 and 18 components of hyper cube 9 organization.
 54. This , that way, would be a focus at the middle at value 17 which is parallel to transcendental code value of formulation (Atma).

6. The transition from first half of the text range of Ganita Sutras to the second half of Ganita Sutras , as such is a transition from Ganita Sutra 8 to Ganita Sutra 9.

7. One way to look at this transition is parallel to a transition from the value of Number 8 to value of Number 9.
8. One may have a pause here and take note that Number value 8 permits reorganization as $8 = 2^3$.
9. Further Number value 9 permits reorganization as $9 = 3^2$.
10. One may have a pause here and take note that values pair ($2^3, 3^2$) constitute a reflection pair of vertical format, as much as that here values of base and index swap their places.
11. One may further have a pause here and take note that reflection pairing of vertical format is of features different than that of reflection pairing of horizontal format like that of numbers pair (23, 32).
12. One may further have a pause here and take note that in case of reflection pairing of vertical format, base and index values swap their places.
13. However, in case of reflection pairing of double digit numbers of ten place value system along horizontal format results in to swapping of unit digits and 10 place value digits.
14. One shall sit comfortably and permit the transcending mind to glimpse and imbibe distinguishing features of formats of reflection pairing of vertical format and of horizontal format.
15. The other way to look at the transition phenomenon from the format of Ganita Sutra 8 to that of Ganita Sutra 9 is to chase transition from the format of hyper cube 8 to the format of hyper cube 9.
16. Hyper cube 8 admits unity state boundary of 16 components.
17. On the other hand the boundary of hyper cube 9 accepts 18 components of natural boundary of hyper cube 9.
18. This, as such brings us face to face with numbers pair (16, 18).
19. One may have a pause here and take note that numbers pair (16, 18) has a jump over number value 17.
20. As such the transition from Ganita Sutra 8 to Ganita Sutra 9 may be chased in reference to number value 17.
21. One may have a pause here and take note that number value 17 is parallel to transcendental code value 17 of word formulation Atma
22. Further as that number value 17 is parallel to 17 geometries range of 8 space.
23. Still further, it is also parallel to the range of 17 versions of hyper cube 8.
24. Still further, the number value 17 may be approached parallel to the set up of 17th geometry of 8 space.
25. The 17th geometry of 8 space is of format and features parallel to that of 17th version of hyper cube 8.
26. One may have a pause here and take note that 17th version of hyper cube 8 is of the format and features of 8 space domain being free of all the 16 boundary components.
27. One shall sit comfortably and permit the transcending mind to fully comprehend and imbibe the features and values of 8 space content manifesting as domain but free of all the boundary components.
28. With it, the transition from the format of hyper cube 8 to that hyper cube 9, the focus is to be upon the set up of 8 space content itself.

29. One may have a pause here and permit the transcending mind to glimpse and imbibe the features of 8 space domain / 8 space content manifesting as domain fold but being free of all of the boundary components.
30. It is this focus which shall be bringing us face to face with the features, values and virtues of Asht Prakarti /8 fold nature.
31. One may further have a pause here and take note that Ganita Sutra 8 focuses simultaneously upon “ completeness and incompleteness”.
32. Scriptures accept and approach ,Puranam/completeness as “ Infinity” .
33. The dominating value /virtue of Puranam is as that it is “Full” and that when full is taken out of Full , they still remain “ Full”.
34. One may have a pause here and take note that “ That which is not full” , will not be having the said virtue of fullness.
35. To have an idea of simultaneous existence of “ complete and incomplete” one may recheck split for close interval as close sub interval and half closed sub interval..
36. The closed sub interval, being closed, though being a part of the regional close interval is full like the original close interval.
37. However, half close sub interval is not full as here in this case it would be open on one side.
38. Ganita Sutra 8, as such is of working rule of features and values of simultaneous existence of “ completeness and incompleteness”.
39. One may have a pause here and take note that there may be infinitely many ways to split close interval in to closed sub interval and half open sub interval.
40. The split point may be a fluctuating point of any placement in between the pair of end point of the closed interval.
41. One may have a pause here and permit the transcending mind to glimpse and imbibe this feature of fluctuating nature of the split point .
42. The fluctuation range of the split point will be of coverage of whole range of the closed interval but for the pair of end points of the closed interval.
43. One may have a pause here and take note that the coverage range of the fluctuating point, as such would be the range of the biggest open interval as sub set of the closed interval.
44. This way , the range of the closed interval shall be leading us to the biggest range of its open sub interval as the coverage range of the fluctuating point .
45. One may have a pause here and take note that Ganita Sutra 9 “ Chalna, Kalna Bhyam” , as such is of the feature of a break through from the static state to the dynamic state .
46. One may have a pause here and have a fresh look at the format of a line as a set up of placements of points of one space/points structured with one space content.
47. Further one may glimpse and imbibe one space format as the format of track of a moving point of zero space content (structures).
48. This brings us face to face with one space as of static placement and it making available a format for the motion of zero space body.

49. The other way to look at the above phenomenon may be as that that static state zero space point while in motion transit and transform in to one space set up of static state parallel to dynamic state of zero space set up.
50. One may have a pause here and permit the transcending mind to glimpse all these features of this phenomenon of inter – relationship of static and dynamic state and to avail it for glimpsing transition from Ganita Sutra 8 to Ganita Sutra 9.
51. One may further have a pause here and take note that the split of solar sphere in to a pair of Northern-Southern Hemi- spheres are of placement values 17 and 19 .
52. It would be blissful to glimpse and imbibe formulation pair namely Atma and Mind as of transcendental code value 17 and 19 respectively.

SECTION-2,
TRANSITION FROM GANITA SUTRA 8 TO GANITA SUTRA 9

STEP-7, TRANSITION FROM 8 TH GEOMETRY TO 9TH GEOMETRY OF 4 SPACE.

1. Transition from number value 8 to number value 9 may be chased parallel to the transition from 8th geometry to 9th geometry of 4 space.
2. 4 space content manifests as 4 space domain of hyper cube 4.
3. Hyper cube 4 accepts solid boundary of 8 components.
4. 4 space accepts 9 geometries range and parallel to it there are 9 version of hyper cube 4 .
5. 9 geometries of 4 space are of the format and features parallel to presence or absence of the boundary components.
6. The version of hyper cube 4 of the format and features of presence of 4 boundary components and absence of 4 boundary components may permit expression as $G (-4, +4)$.
7. The presence of 4 components and absence of 4 components as such shall be leading to $-4 + 4 = 0$ (Signature).
8. Parallel to it there would be a zero signature geometry.
9. 9 geometry of 4 space shall be of the range of (-4, -3, -2, -1, 0, 1,2,3,4.) signature.
10. One may have a pause here and take note that 0 signature geometry because of neutralized state , distinctively marks itself for its presence and same may be parallel to the state of 4 space domain free of its boundary effects.
11. A reach to this state of 4 space domain as comparison to the state of hyper cube 4 with its complete boundary of 8 components intact, is the reach which deserves to be comprehended well and to be thoroughly appreciated.
12. The transition from the state of hyper cube 4 with its full boundary of its all 8 boundary components intact , to the state of fully neutralized boundary deserves to be comprehended well and to be thoroughly appreciated.

13. One may have a pause here and take note that neutralized boundary state may be when there are 4 components present and also at the same time 4 components are absent.
14. Further neutralized boundary state also would be there when 4 space domain would be free of all of its boundary components.
15. One shall sit comfortably and permit the transcending mind to fully comprehend and thoroughly appreciate the neutralized boundary state of 4 space domain in its both prospective as of half boundary being present and half boundary being absent and also when it is free of its entire boundary.
16. These features and values of existence and absence of boundary of 4 space deserves to be comprehended well and to be thoroughly appreciated for its complete imbibing to acquire deep insight and thorough enlightenment of transition from simultaneous existence of completeness and incompleteness to go parallel to the format and features of transition from number value 8, number value 9 and further to be parallel to transition from the format and features of Ganita Sutra 8 to Ganita Sutra 9.
17. One may further have a pause here and take note that existence of the state of half boundary being present and half boundary being absent deserves to be comprehended well and to be thoroughly appreciated for its complete imbibing in reference to hyper cube 4 as 4 space body as 4 space is a spatial order space (2 space plays the role of dimension of 4 space).
18. One may have a pause here and take note that $2 + 2 = 2 \times 2 = (-2) \times (-2)$.
19. Further as that $0 + 0 = 0 \times 0 = (-2) \times (-0)$.
20. Still further as that $2^4 = 4^2$.
21. One shall sit comfortably and permit the transcending mind to glimpse all these features of spatial order 4 space .
22. Further as that spatial order itself is a 0 order space.
23. As such working with half boundary in stead of full boundary is a challenge of all the above features .
24. The modern system when are confronted with the situation like everywhere continuous but no where derivable function and finding it not possible to come out of this situation and same becoming a Mathematical knot of modern Mathematics , the same is only because of the modern Mathematics axioms' and postulates being incapable of reaching back from half boundary features to full .
25. Moreover, it is going invisible for the set up axioms of modern system as that in case of continuity of function there is same degree domain while in case of derivatives , there simultaneously come in existence a pair of consecutive degrees domain.
26. Vedic systems duly take care of all these situations.
27. Vedic systems properly work out spatial and higher dimensional order.
28. And these features of Vedic systems deserve to be comprehended well and to be thoroughly appreciated for their complete imbibing .

**SECTION-2,
TRANSITION FROM GANITA SUTRA 8 TO GANITA SUTRA 9**

STEP-8, REACH FROM NUMBER VALUE 1 TO NUMBER VALUE 2 AND BACK
AND FORWARD FROM NUMBER VALUE 2.

1. Formulation 1 accepts transcendental code value 8.
2. Formulation Dway accepts transcendental code value 16.
3. Transcendental code value Tray accepts transcendental code value 8.
4. One shall sit comfortably and permit the transcending mind to glimpse and imbibe triple numbers value (1,2,3) and parallel to it , to glimpse and imbibe number values triple (8,16,8)
5. One may have a pause here and take note that numbers value triple (8,16,8) takes from middle to either side of equal values steps.
6. One may further have a pause here and takenote that in reference to numbers value triple (1,2,3), the reach from number value 1 to number value 2 along the format (8,16,8) is a reach from number value 8 to number value 16.
7. Further the reach from number value 2 along the format (8,16, 8) would be backward and forward reach of equal values step of value 8.
8. One may have a pause here and permit the transcending mind to glimpse and imbibe the above format and features of pair of values triple (1,2,3) and (8,16,8) .
9. Further one shall sit comfortably and permit the transcending mind to glimpse and imbibe the features of spatial order (2 space in the role of dimension) in the light of the features $2+2 = 2 \times 2 = (-2) \times (-2)$ where not only addition and multiplication are super imposed but also pair of orientation as well get super imposed.
10. One may further have a pause here and take note that spatial order (2 space in the role of dimension) permit simultaneous approach as “ 1 as 2 and 2 as 1” .
11. One may further have a pause here and take note that Ganita Sutra 1 is of the text of 16 letters.
12. On the other hand,Ganita Sutra 16 and 15 are of 16 letters each.
13. Still further at the middle the text of Ganita Sutras 8 and 9 as well are the text of 16 letters each.
14. One may further have a pause here and take note that the first half range of Ganita Sutras 1 to 16 i.e. of Ganita Sutras 1 to 8 at its both ends are the text of letters 16 , 16.
15. However, the text of second half range of Ganita Sutras 1 to 16 , i.e. Ganita Sutras 9 to 16 has text of 16 letters at one end as text of Ganita Sutra 9 while at the other end, there is a pair of sutras namely Sutras 15 and 16 , both being the text of 16 letters each.
16. One may have a pause here and take note that reach from Ganita Sutra 1 to the middle and reach from the other end i.e. from Ganita Sutra 16 to the

middle, is of the feature which deserves to be comprehended well and to be thoroughly appreciated.

17. One may have a pause here and take note that at the above reach from the first end may be as a reach from 16 to 16 values text.
18. While the reach from the other end would be a reach from pair of values 16 and 16 as of Ganita Sutras 16 and 15 to the reach at the middle of values 16 and 16 as of Ganita Sutras 9 and 8.
19. One shall sit comfortably and permit the transcending mind to glimpse and imbibe the values and features of organization of the text of Ganita Sutras.
20. One may further have a pause here and take note that Ganita Sutra 13, the end Sutra (Upsutra) of the whole range of Ganita Sutras and Upsutras is a text of $16 + 16 = 32$ letters text.
21. One shall sit comfortably and permit the transcending mind to imbibe all these features and values of the organization of the text of Ganita Sutras and Upsutras to acquire insight about the working features of spatial order of Creator's space (4 space)
22. In the light of the above, in sight, one may have a fresh visit to the Mathematical knots of axioms and postulates of modern system having focus upon linear order and the same being completely devoid of the features of the spatial order.
23. The modern system deserves to be augmented by the features of Vedic systems .
24. It would be a blissful exercise to have a fresh visit to the Mathematical problems of modern Mathematics and to approach them afresh in the light of the Vedic systems.
25. Further , one shall sit comfortably and permit the transcending mind to fully comprehend and appreciate as that the space around us is not a linear order 3 space .
26. It is a spatial order 4 space .
27. At the origin of spatial order 4 space is the seat of solid order transcendental space.
28. The whole range of dimensional orders are compactified at the origin of Creator's space (4 space).
29. The sequential compactification of dimensional order at the origin of 4 space, sequentially unfold themselves.
30. One shall sit comfortably and permit the transcending mind to glimpse this phenomenon of compactification of dimensional space at the origin of 4 space and their sequential unfolding .
31. This phenomenon of transcendence through the manifested creation deserves to be comprehended well and to be imbibed fully.

**SECTION-2,
TRANSITION FROM GANITA SUTRA 8 TO GANITA SUTRA 9**

**STEP-9, TRANSITION FROM MANIFESTATION FORMAT TO
TRANSCENDENCE FORMAT.**

1. One way to chase transcendence from the format of Ganita Sutra 8 to Ganita Sutra 9 is to go parallel to the transition from manifestation format to transcendence format.
2. Creator's space (4 space) is of spatial order and it provides four fold manifestation format.
3. Transcendental space (5 space) is a solid order space and provides format for transcendence from one manifestation layer to another manifestation layer.
4. 4 space has 5 space in the role of origin.
5. Domain fold of hyper cube 4 is of spatial order.
6. Origin fold of hyper cube 4 is of solid order.
7. The transcendental origin of 4 space permits transcendence .
8. This transcendence at the origin fold of 4 space is of two fold nature.
9. Firstly it is of the format and features of transcendence from domain fold through origin fold for reach at base fold.
10. Secondly it is of the format and features of ascendance from the base fold through origin fold for reach upto domain fold.
11. Domain fold provides a four fold manifestation layer of 4 consecutive space content.(N, N+1, N+2, N+3).
12. The base fold provides a reach for the transcendence range through origin of values of 5 consecutive dimensional spaces (N, N+1, N+2, N+3, N+4).
13. One may have a pause here and take note that the five fold range (N, N+1, N+2, N+3, N+4) permits a format for a pair of four fold manifestation layers namely, (N, N+1, N+2, N+3) and (N+1, N+2, N+3, N+4).
14. One may have a pause here and take note that the above features of the transcendence range for a pair of manifestation layers , as such amounts to providing a translation for the consecutive manifestation layers along the transcendence range format.
15. One shall have a pause here and permit the transcending mind to glimpse all these features of transcendence through manifestation layers of the format and features of translation of consecutive manifestation layers pair.
16. This, as such shall be bringing us face to face with the static state of manifestation layers and dynamic state of manifestation layers from existing format of manifestation layer to that of next consecutive manifestation layer.
17. It is this feature of translation for a manifestation layer from its existing format to that of the format of the next consecutive manifestation layer deserve to be comprehended well as it shall be giving insight about the transition from the static state manifestation layer to the dynamic state manifestation layer.

18. One may have a pause here and take note that the transition from the format of Ganita Sutra 8 to the format of Ganita Sutra 9 deserves to be chased along the above translation format of manifestation layers.
19. One may further have a pause here and take note that $3 + 5 = 8$ and $3 \times 5 = 15$, as such leads us to the parallel values of dimensional order of 4 space being of value $2 \times 4 = 8$ and that of 5 space being of value $3 \times 5 = 15$.
20. One may further have a pause here and take note that the transcendental value triple (1,3,5) with summation value 9 further brings us face to face with the phenomenon of 9 points fixation of hyper cubes.
21. It would be blissful exercise to chase 9 point fixation of square/hyper cube 2.
22. Further to chase 9 point fixation of cube /hyper cube 3.
23. Still further it also would be a very blissful exercise to chase 9 point fixation of hyper cube 4.
24. One may have a pause here and take note that hyper cube 4 is a four fold manifestation layer and its format is of features and values parallel to the format and features of idol of lord Brahma, Creator of the Supreme, along which there manifest whole range of manifested creation and also along with which the transcendence takes place through the manifested creation.
25. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe the phenomenon of transcendence through manifested creation leading to translation of manifestation layers and as a consequence of which there emerges a transition from static state to dynamic state, in terms of which one may glimpse and imbibe the format and features of transition from Ganita Sutra 8 to Ganita Sutra 9.

SECTION-5,
KAIVELYA PADA OF PATANJALA YOG DARSHAN
STEP-22, KAIVELYA PADA VALUES OF SUTRA 1

1. There are 5 basis of emergence of Sidhhis namely (1) Janam (2) Aushadhi (3) Mantra (4) Tap and (5) Smadhi.

2. The especial features are acquired by Shareer, Indriya and Chit.
3. These especial features acquired by (1) Janam (2) Aushadhi (3) Mantra (4) Tap and (5) Smadhi are designated as Sidhi.
4. One is to glimpse and imbibe these especial features acquired by No.1 Shareer (2) Indriya and (3) Chit on the basis of (1) Janam (2) Aushadhi (3) Mantra (4) Tap and (5) Smadhi.
5. The especial features acquisition even is of the values of change from 1 (Jati) to another Jati.
6. One may have a pause here and take note that Jati is a word formulation .
7. It is conceptual term .
8. Broadly existence with in one type of frame like human frame is of the format and features of one “ Jati”.
9. That way human beings constitute one Jati.
10. Cows constitute another Jati.
11. And like that the existence phenomenon with in different frames is of the format and features of existence as of different “ Jati”.
12. One may have a pause here and take note that word formulation “ Jati” accepts TCV value 12.
13. Further, the self referral domain (6 space) accepts transcendental boundary (5 space as boundary) of 12 components.
14. Further these 12 transcendental components of transcendental boundary of self referral domain are of the format and features of Dwadus Adityas (12 Suns)
15. The virtue of these values is that that existence from with in one frame would get transform in to existence with in another frame.
16. One may have a pause here and take note that it is this comprehension whose appreciation deserves to be imbibed fully to have deep insight and proper enlightenment of values of Kaiveilya Pada chase.
17. It would bring us face to face with a question as to such happening on the basis of Sidhhis enumerated above.
18. Theoretically, it may bring us face to face with a situation of one domain (space content manifesting as domain fold) accepting transformation for its frames.
19. It would be a poser of the format and features of the values of the space content.
20. One may have a pause here and take note that the space content here is of Pursha domain, which is of the format and features of 6 space content.
21. One may have a pause here and take note that it is the comprehension of this chase value of Kaiveilya Pada which shall be setting us on the processing steps of Vedic systems.
22. Further as that the context is of existence phenomenon of ourselves as such it is going to be uniquely blissful and
23. it shall be most intimately verifiable .
24. It is a big challenge.

25. It is this challenge which becomes the real challenge for the modern mind and modern processing systems as well as of the modern state of reach about the existence phenomenon.
26. Sadhakas intensifying with urge shall chase these values further
27. And this chase will help us glimpse and imbibe the virtues of the values of the knowledge system at work in the chase steps of Kaivelya Pada.
28. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe the virtues of this values chase steps of Kaivelya Pada initiated in terms of the values of Sutra 1 and the challenge being posed by it .
29. Further it is by being face to face with this challenge that we can transit from the values of Sutra 1 to the values of Sutra 2 , which in a way is the answer to the above posers of attainability of especial features of potentialities of transition and transformation with in human frame in to another Jati.
30. It would be a very blissful exercise to permit the transcending mind to pose to itself this challenge and then try to glimpse and imbibe the emerging virtues.

STEP-23, VALUES OF SUTRAS 2,3,4 & 5

1. Sutras 2,3,4 & 5 may be glimpsed together.
2. Kaivelya Pada , in its Sutras 2,3,4,5 chases the answer for the poser of Sutra 1 as to the transition and transformation of existence with in one frame to another frame.
3. The value of Sutra 2 gives the basis of the value of transition and transformation potentialities being there because of ***Parkritya Purat.***
4. One shall sit comfortably and permit the transcending mind to glimpse and imbibe the values of "***Parkritya Purat.***
5. This conceptual term leads to values of " Parkriti"
6. The essence of values of "Parkriti " is in its virtue of being , to be fulfilled " Pura".
7. It is the fulfillment of Parkriti that there emerge especial features attainability of transition and transformation from existence with in one frame to the existence with in another frame.
8. One shall sit comfortably and permit the transcending mind to continuously remain in deep Trans and to glimpse and imbibe these values of Parkriti to be Parkriti Purya.
9. Further one shall pose to oneself as to the virtues of these essence values of Prakriti as per Prakritya Purya being at the base of especial potentialities to transit and transform from existence with in one frame to the existence with in another frame.
10. One may have a pause here and take note that Prakriti Purya is of the format and features of Prakriti being the Upadaan Karan.

11. One shall sit comfortably and permit the transcending mind to glimpse and imbibe Prakriti Purya and Upadaan Karan.

22. One shall sit comfortably and permit the transcending mind to glimpse and imbibe the values of above formats.
23. In particular, the roles of value 8 .
24. One shall further sit comfortably and permit the transcending mind to glimpse and imbibe the values of transformation of role of 3 space content from domain fold of hyper cube 3 to boundary fold of hyper cube 4.
25. Sutra 3 enlightens us about the obstructive role of boundary and the efforts to overcome these obstruction being like that of farmer making the field ready for the crop.
26. One shall sit comfortably and permit the transcending mind to glimpse and imbibe the distinctively role of space content as domain fold , and as boundary fold.
27. It is by imbibing this distinctive set up features of 3 space as domain and 3 space as boundary which shall be helping us comprehend and imbibe the values chase step of Sutra 3 of Kaivelya Pada.
28. One shall sit comfortably and permit the transcending mind to continuously remain in prolong sitting of Trans to visit and revisit the distinctiveness of boundary fold from that of domain fold.
29. It would be a blissful exercise to sequentially chase the boundary folds of hyper cubes 1 to 6 .
30. One may have a pause here and take note that the external characteristics of Shud Chakras of human frame go parallel to the value sequence (2,4,6,8 , 10,12) which is parallel to number of boundary components of hyper cubes 1 to 6.

31. One shall sit comfortably and permit the transcending mind to continuously remain in prolong sitting of Trans and to glimpse and imbibe the above formats and features of Shud Chakra format of human frame.
32. It is this feature and format of values parallel to geometric formats of Sathapatya Measuring Rod, which shall be helping us comprehend and imbibe the features of sequential transition permissible in a coordinated manner along the format of Sathapatya Measuring Rod as well as along the Shud Chakra format of human frame.
33. Sutra 4 further enlighten us that this format makes permissible for Chit Nirman of various folds .
34. One may have a pause here and take note that Sutra 4 enlightens us that this happens because of Asmita.
35. One may have a pause here and take note that the word formulation Asmita accepts transcendental code value 21.
36. Further as that $21 = 1+2+3+4+5+6$. which is parallel to the summation value of domain fold of hyper cubes 1 to 6.
37. Further as that it is a reach upto 6 space domain.
38. It is of the order of Sun.
39. One shall sit comfortably and permit the transcending mind to glimpse and imbibe these formats and features of Chit Nirman as of manifolds because of Asmita of transcendental code value 21 being parallel to the summation value of domain folds of hyper cubes 1 to 6 synthesizes Sathapatya Measuring Rod.
40. Sutra 5 further enlightens us that it is because of such Chit Nirman that one Chit is capable of being of existence with in different domains.
41. One shall sit comfortably to visit and revisit format , features, values, virtues and orders of framed domain of hyper cubes 1 to 6 ,
42. Further it also would be a blissful to chase common domain boundary formulation for whole range of hyper cubes being $A^n : 2N^n$.
43. Further the values sequence 2,4,6,8,10,12 is parallel to sequential formats of transition and transformation from 2 space as dimension to 4 space as domain, 4 space as dimension to 6 space as domain, 6 space as dimension to 8 space as domain, 8 space as dimension to 10 space as domain, 10 space as dimension to 10 space as domain.
44. One may have a pause here and take note that this is a sequential reach of dimensional synthesis range values of single , double, triple, quadruple, five and six spatial dimensions set ups.
45. Still further it is going to be parallel to a dimensional split spectrum for the domain taking us in reverse orientation from 12 space domain to 2 space domain in sixth step.
46. One may have a pause here and take note that this domain split spectrum is going to be of spectra values range (1,2,5,12,29,70).
47. One may have a pause here and take note that this shall be bring us face to face with 1 domain of 12 space, 2 domains of 10 space, 5 domains of 8 space, 12 domains of 6 space, 29 domains of 4 space and 70 domains of 2 space.

48. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe these formats and features of dimensional synthesis and dimensional domain split spectra.
49. Sadhakas may refer to organization format of Srimad Bhagwat Geeta.
50. Further Sadhakas shall also refer to organization format of periodic table of elements.
51. Still further one shall refer to 120 years cycle of exhaustive coverage of the transcendental boundary of self referral domain by the creative space.

5. Number value 13 accepts reorganization as $2 \times 6 + 1$.
6. It is parallel to 13 geometries range of 6 space.
7. It is also parallel to 13 versions of hyper cube 6.
8. 6 space accepts creative dimensional order (4 space in the role of dimension).
9. 12 edged cube accepts additional edge with in 4 space domain.
10. As such number value 13 also goes parallel to 13 edged set up for cube in dynamic state with in 4 space.
11. The distinction between the format values of formulations Chit and Vastu can be better chased by chasing the individual letters availed by these formulations.
12. The sequence of letters being availed by the formulation as well play their specific roles in the format values of the formulations.
13. The transcendental code value accepted by individual letter of the alphabet lead us to the geometric formats beneath these individual letters.
14. One may have a pause here and take note that the organization of the alphabet itself adds specific values roles for the individual letters as per the placement of the letters in the alphabet organization .
15. In this light the chase of word formulation Chit and word formulation Vastu will help us acquire proper insight and enlightenment about these formulations.
16. One may have a pause here and take note that the formulation Vastu avails its composition letters of TCV values (7,1,3,4,3).
17. likewise the TCV values sequence range for the word formulation Chit comes to be (2,2,4,4,1).
18. One may further have a pause here and take note that in addition to the above information , the further information needed would be about the placements of the individual letters in the organization format of alphabet.

19. One may further have a pause here and take note that the features of organization of alphabet itself is as per the different roles like dimensional order, dimensional frame, boundary fold, domain and origin.
20. In addition to these, the further feature of being specific structural attributes like that of vowels , consonants (Verga consonants, Anthasathas, Ushmana), and Yamas.
21. One may have a pause here and permit the transcending mind to continuously remain in prolonged sitting of Trans to glimpse these features in reference to the formulation Chit and Vastu.
22. Further these features shall be helping us their chase along the format of Sathapatya Measuring Rod.
23. One may have a pause here and take note that Lord Vishnu, the presiding deity of 6 space is the presiding deity of Sathapatya Measuring Rod.
24. Still further, Lord Brahma , presiding deity of 4 space is the presiding deity of the measure of the measuring rod.
25. With this, the focus upon the measure shall be taking us to creator's space (4 space).
26. With it, the format and features of 4 space domain shall be coming into focus.
27. One may have a pause here and take note that with in 4 space, static cube acquires a degree of freedom of motion which manifests an additional edge for the 12 edged cube.
28. One may further have a pause here and take note that 4 space is a spatial order space.
29. As such the 13th edge shall be having spatial format.
30. One may further have a pause here and take note that 5 space plays the role of origin of 4 space.
31. This leads us to the format of hyper cube 4 as a four fold manifestation layer (2,3,4,5).
32. One may have a pause here and take note that 5 space as 5 space content manifesting as domain fold of hyper cube 5 takes us to the format of hyper cube 5 as a four fold manifestation layer (3,4,5,6) of summation value $3+4+5+6=18$ which is parallel to transcendental code value of formulation Vastu.
33. It would be a blissful exercise to glimpse and imbibe the organization format and features of formulations Chit and Vastu in reference to the existence phenomenon with in 4 space.
34. One may have a pause here and take note that 4 space is the creator's space.
35. It is a spatial order space.
36. The dimensional synthesis of spatial order dimension sequentially leads us to $(2)=2$, $(2,2)=4$, $(4,4)=6$, ----.
37. One may have a pause here and permit the transcending mind to glimpse and imbibe the values of formulation Shareer which accepts transcendental code value 14 which accepts reorganization as $14 = 2+3+4+5$, which is parallel to four fold manifestation layer (2,3,4,5) of hyper cube 4.

1. The existence phenomenon with in human frame , as well as outside human frame , as existence phenomenon of our solar universe is of Trinary format.
2. Presently we are well acquainted with binary format accepted by computation machine.
3. The next generation machine aiming to being of the order of chase range of Solar universe is to be of trinary format.
4. We may designate as of Bio-format.
5. Binary system avails a pair of values entities, say (0,1).
6. The trinary format avails triple values entities say (-1, 0, 1).
7. The dimensional synthesis of a pair of linear dimensions (1,1) = 3 .
8. It is this organization format (Monad, Monad) = (Tri-Monad) deserves to be comprehended well for its thorough appreciation.
9. One may have a pause here and take note that this, as such shall be taking us to the range of values (1 to 26), as that the number of primes of this range (including one, shall be (1,2,3,5,7,11,13,17,19,23) which are 10 in number and it shall be helping us work along with the range of 10 primes in stead of the range of 10 numerals, including zero.
10. One may have a pause here and take note that the range of values 1 to 10 is of unique features , as much as that first triple values (1,2,3) are primes while the last triple value (8,9,10) are non-primes.
11. Still further. Parallel to this feature, the numbers range 1 to 26 as well is having first triple value (1,2,3) as primes while the last three triple values (24,25,26) are non-primes.
12. The English alphabet letters A to Z being 26 in number , as parallel to number values range 1 to 26 in that sequence and order accept 5 vowels namely a,e,i,o,u) of values range (1,5,9,15,21).
13. One may have a pause here and take note that the first triple value has triple values (1,5,9) as such is parallel to triple points fixation for 9 points line as pair of end point and the middle point.
14. One may have a pause here and take note that $1+5+9 = 15$.
15. Still further as that $15 = 1+2+3+4+5$ and value $21 = 1+2+ 3+4+5+6$.
16. One may have a pause here and take note that the values range (10,14,18,22,26) is a 5 step long range covering upto number value 26.

 34. In general $(-1)^{2n+1} = 1$, $0^{2n+1}=0$ and $1^{2n+1}=3$.
 35. However, $(-1)^{2n} = 1$, $0^{2n}=0$ and $1^{2n}=3$.
 36. One may have a pause here and take note that the above classification of dimensional domain in to odd dimensional order domain and even dimensional order domain will help us have insight about this classification feature reducing the working unit being ($\frac{1}{2}$) in stead of (1).
 37. This will amount to reducing the format range itself to its half length.
 38. Further it also shall be again taking us to the format of binary system but with the difference to be taken note of regarding the application only to even dimensional order domain.

**SECTION-5,
KAIVELYA PADA OF PATANJALA YOG DARSHAN**

STEP-26, PURSHA IS SELF ILLUMINATIVE WHILE CHIT IS NOT

1. Enlightenment virtue of Kaivelya Pada focuses upon self illuminative existence of Pursha while Chit is not possessing this virtue.

15. Still further it permits reorganization as $10 + 10 + 0 \times 11$.
16. Still further it permits reorganization as $20 = 10 + 10 + 0$.
17. Still further it permits reorganization as $(0 + 1 + 2 + 3 + 4) + (0) + (0 + 1 + 2 + 3 + 4)$.
18. One may further have a pause here and take note that the above organization format is a 0 dimensional pair of five fold ranges.
19. A linear order pair of transcendence ranges of five folds shall be accepting synthesis value as
 $(1 + 2 + 3 + 4 + 5) + 1 \times 11 + (1 + 2 + 3 + 4) = 31$.
20. A spatial order pair of transcendence ranges of five folds shall be accepting synthesis value as

21. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of Trans to glimpse and imbibe the values of above formats features.

22. One may further have a pause here and take note that the above role of format of number value 11 in reference to number value 13 , deserves to be comprehended well for its thorough appreciation to acquire insight and enlightenment of distinction between the existence formats of formulations Chit and Pursha.
23. One may further have a pause here and take note that values pair (13,31) is a reflection pair of numbers.
24. It is this feature which deserves to be comprehended well for its thorough appreciation in reference to the set up of 13 edged cube.
25. One may have a pause here and take note that cube is the structural set up of 31 components (8 corner points, 12 edges, 6 surfaces, 1 volume, 3 axes and 1 origin).
26. Further it also would be relevant to take note that the split of a three dimensional frame into a pair of 3 dimensional frames brings us face to face with the organization format (3, 4,3).

31. One may have a pause here and take note that the formulation Pursha is of transcendental code value 24 with sequential values range (5, 3,3,3+3,6,1).
32. This value deserve to be chased in reference to the dimensional synthesis value of solid dimensions of transcendental domain.
33. Further as that $2+3 = 5$ and $2 \times 3 = 6$.
34. Still. Further as that $3,3,3 = 6$
35. Still further as that $6 - 5 = 1$.
36. One may have a pause here and take note that the chase along the trinary format of formulation Pursha shall be bringing us face to face with the transition and transformation of a transcendental domain being of 12 fold transcendental domains.
37. It is this transition attainment for the transcendental domain itself transiting and transforming as 12 transcendental domains which deserves to be chased as a phenomenon of Surya being of the existence of Davadus Adityas (12 Suns).
38. One may have a pause here and take note that transcendental code value of formulation Vishnu the over Lord of 6 space is 25 which permits reorganization $25 = 5 \times 5$ and still further asthat $25 = 2 \times 12+1$, and still further as that $25 = 13+12$.

42. One may have a pause here and take note that 13 versions of hyper cube 6 as such are 13 six dimensional domains.
43. While on the other hand 12 components of transcendental domains are 12 five dimensional domains.
44. It would be a blissful exercise to comprehend as that as 13 points are leading to 12 linear units.
45. Still further 13 six dimensional frames are leading to 12 five dimensional domains.

STEP-27, KAIVELYA STATE IS THE SELF REFERRAL DOMAIN STATE

1. One shall sit comfortably and permit the transcending mind to go parallel to the self referral domain (6 space).
2. It is free of the restrictions of sequential emergence and play of orders.
3. Being free of sequential emergence and orders , it is of an affine state.
4. Number value 6 with uniqueness of its perfection as that
 1. It accepts only triple proper devisors namely 1+2+3.
 2. These triple proper devisors on a unique triple of numbers value which do not accept any proper divisor other than one .
 3. Further $1+2+3= 6$.
 4. Still further $1 \times 2 \times 3 = 6$.
 5. Still further $2+2+2= 6$.
 6. Still further $2 \times 3 = (-2) \times (-3)$.
5. May it be the second perfect number (28) or any other perfect number , their proper divisor being more than 3 or not to possess the above features as that that quadruple (1,2,3,4) onward ranges of numbers possess primes as well as composite numbers.

6. Illustratively second perfect number (28) accepts five proper divisors namely (1,2,4,7,14) which accept summation value $1+2+4+7+14 = 28$ while their product value $1 \times 2 \times 4 \times 7 \times 14$ is much bigger than 28.
7. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe the format and features of above values of number 6 vis-à-vis the other perfect numbers.
8. Transcendental code value of word formulation Kaiveilya is 24.

10. Number value 24 permits reorganization as $4 \times 6 = 24$.
11. It is parallel to the value of six creative dimensions of 6 space (4 space in the role of dimension of 6 space and six such dimensions constitute dimensional frame of 6 space.
12. The formulation Kaiveilya is the composition of 3 syllables of transcendental code values (9,8,7) .
13. One may have a pause here and take note that 6 space in the role of dimension shall be structuring subsequent 3 folds namely 7 space in the role of boundary, 8 space in the role of domain and 9 space in the role of origin of hyper cube 8
14. One may have a pause here and take note that this , this way brings us face to face with the Kaiveilya state of order of Pursha attaining 8 space domain of Brahman origin in an unsealed state and thereby the natural reach is to be there to Par-Brahman, the base of Brahman origin.
15. One may further have a pause here and take note that transcendental code value of word formulation Smadhi is 23.
16. Further as that 25 points coverages for 23 linear units coverage.
17. Further as that value 23 admits reorganization as $23 = (3+5) + (3 \times 5)$.
18. Further as that in addition to above feature of super imposition of addition and multiplication operations, it in a way also is of the reach of transcendental code value of word formulation Anant.
19. Still further as that transcendental code value of word formulation Shahasth as well is 23.
20. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe the above format and features
21. Smadhi leads to and attains Anant.
22. The chase of word formulation Smadhi shall be further bringing us face to face with the set up of its transcendental code value 23 as (3,1,9,2,7,2) which is of a summation value 24 , which visits in position upon the circumference of the circle shall be resulting into super imposition of end points and thereby making it a set up of 23 points parallel to which there would be 23 components of the circumference.
23. One may have a pause here and take note that in its reverse process , the reversal of the super imposition of end points shall be again making it a set of 24 points of coverage of 23 linear unit range.
24. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe the above format and features.

25. One shall have a pause here and take note that 6 space is of a creative dimensional order (4 space in the role of dimension).
26. However, 4 space itself is of a spatial order (2 space in the role of dimension of 4 space).
27. With it the measure for 4 space shall be of spatial order (number value 2 as a unit).
28. It is this feature which deserves to be comprehended well and to be thoroughly appreciated.
29. Taking linear unit value 1 and spatial unit value 2 , we may differentiate the measures of linear order 3 space and spatial order 4 space.
30. It would be a blissful to comprehend this reach of Kaivelya Pada as the end reach value of Patanjali Yog Darshan scripture.
31. Patanjali Yog Darshan scripture is a scripture of 4 Padas .
32. It is parallel to 4 spatial dimensions of 4 space.
33. It is further parallel to 4 space in the role of dimension of 6 space.
34. First Pada is Smadhi Pada.
35. The sequential chase of this formulation shall be leading us to Sa-Am-a-Adh-e.
36. One feature of this format is of values steps ($3^1, 3^2$; 1 as half of 2).
37. The chase of formulation Pursha is of chase steps of values sequence (5,3,3, 3+3,6,1).
38. This is parallel to the chase of transcendental domain along its single, double, triple and quadruple solid dimensions and ultimately to have a reach at its origin.(Self referral origin; 6 space in the role of origin of 5 space) .
39. Smadhi Pada is a scripture of 51 sutras.
40. The number value 51 is parallel to the range of value 1 at unit place and value 5 at next place.
41. It is parallel to the chase of 5 space domain.
42. This feature is parallel to $51 = 5 \times 10 + 1$, a coordination of 5 x 10 coordinates of creative boundary of 5 space with origin of 5 space.
43. Further it is parallel to the chase along the format of measuring rod synthesized by hyper cubes 1 to 5 for exhaustive coverage of transcendental domain (5 space domain).
44. Still further $51 = 34 \times 3/2$.
45. One may have a pause and take note that 4th Pada namely the Kaivelya Pada is a scripture of 34 sutras.
46. Still further as that number value 23 is a chase reach from number value 3 back to number value 2 and $3 = 2 \times 3/2$.
47. Further as that the reach from 2 to 3 or back from 3 to 2 accepts 3/2 as a working factor .
48. The second and third Padas respective are of sutras 55 and 56 respectively.
49. The summation value $55+56 = 111$ speaks for itself.
50. One may have a pause here and take note that the text also fix sutras for second and third Pada as 55 and 55.
51. The summation value $55+55 = 110 = 11 \times 10$ is parallel to the transcendence at transcendental origin of all the 10 creative components of transcendental

domain and thereby there being the emergence of 11 geometries range at seat of origin of each of the 10 creative components.

52. Still further 111 and 110 are inter-related as 111 points and 110 linear components.
53. NVF (Perfection) = 111 while NVF (Sunlight) = NVF meditation = 110
54. One may have a pause here and take note that the scripture range of 196 sutras as number value 196 with a value 6 at unit place and value 19 at the ext place as such focuses upon the pair of values (6, 19).
55. It would be blissful to take note that lord Krishna is the incarnation of Lord Vishnu(Presiding deity of 6 space).
56. Further transcendental code value of word formulation Krishna is 19, which is also parallel to the transcendental code value of word formulation Mann (Mind).
57. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of Trans and to glimpse and imbibe the above format and features.
58. Sadhkas intensified with the urge to chase Vedic Mathematics, Science and Technology shall sequentially chase the Patanjala Yog Darshan scripture beginning with first sutra of its first Pada and to reach upto the last sutra of last Pada and to attain insight and enlightenment of existence phenomenon of our solar universe, with in and beyond human frame simultaneously by initiating the chase with in the spatial order creator's space.
59. This shall be sequentially bringing us face to face with the self referral domain (6 space as domain) absorbing all sequential orders and making it an affine format for our existence phenomenon.
