

UNDERSTANDING MATHEMATICAL BASIS OF ENGLISH LANGUAGE

Week-19 (Air, Sun)

Introductory

1. The phase and stage of 'Sun mathematics' as of the format and features of Air, Sun permits its chase along the format of pentagon.
2. NVF (Air, Sun) = 82 = NVF (Factors) = NVF (Affine, affine), with NVF (Affine) = 41, on its chase shall be bringing us face to face with the Transcendental format of following features
 - i. NVF (Light) = NVF (Air, air)
 - ii. NVF (Sun, sun) = NVF (geometry)
 - iii. NVF (Sun) = NVF (Half, half)
 - iv. NVF (Sun) = NVF (Air god)
3. One may have a pause here and permit the transcending mind to be face to face with the feature $54 = 28 + 26$ leading to Sun domain as air domain super imposed with its dimensional order.
4. One may further have a pause here and take note that $106 = 54 + 52$ and $54 = 28 + 26$ on their chase will enrich our insight about sun mathematics of its full range of solar universe with pole star as its origin folds.

=====
Day 1: NVF (Air, Sun)
=====

1. The chase of NVF (Air, Sun) = (28, 54) shall be leading us to a very big range of pure and applied values.
2. The split of artifice 28 as $1 + 27$, $2 + 26$, $3 + 25$, ---- ($14 + 14$) and further the split of artifice 54 as $27 + 27$, $28 + 26$, $29 + 25$, ---- $53 + 1$, on their organization formats of manifested formulations shall be leading us to the format and features of 'a half sun', 'B God Sun', and so on.
3. Further the summation value $28 + 82 = 41 + 41$ shall be leading to another sets of formulations which would be providing us better insight about 'air, sun' phase and stage of 'Sun mathematics'.
4. Still further the pairing of artifices range 1 to 82 with itself shall be leading to the extended range of artifices 1 to 164 and parallel NVFs values and corresponding manifestation formulations group on their chase shall be enriching our insight further.

=====
Day 2: (Sun, Air)
=====

1. Parallel to earth air, the chase of Sun air is going to be a very valuable chase.
2. This shall be amounting to the transition from (air, air) = NVF (Light) to (Affine, affine) = NVF (Factors)
3. Here it would be relevant to note that NVF (Affine) = NVF (air, age)
4. Further it would be relevant to note that NVF (Earth air) = NVF (creator) = NVF (mind, mind)

5. One may have a pause here and take note that the transition from 'Earth air' is going to be the format and features of values pair '40, 40' to values pair (41, 41)
6. Further it also would be relevant to note that the elements 'air' and 'sun' are separated by the element 'space'.
7. $NVF(\text{Space}) = 44 = 22 + 22 = NVF(\text{go, go})$ and $NVF(\text{Air}) = 28 = 14 + 14 = NVF(\text{dead, dead})$ and further $NVF(\text{Sun}) = 54 = NVF(\text{Half, half})$ shall be leading us to a Transcendence path of pair of streams permitting go for dead from each of the streams through space into Sun
8. One may further have a pause here and take note that the $NVF(\text{light}) = 56 = 28 + 28 = NVF(\text{air, air})$ while Transcendence through space with $NVF(\text{Space}) = 44 = 22 + 22 = NVF(\text{Go, go})$, shall be making a go for air along both the streams from Sun as sunlight through the space and having a reach to air space as a spatial order reach
9. One may have a pause here and permit the transcending mind to continuously remain in prolonged sitting of trans and to glimpse this two fold Transcendence phenomenon from air space to Sun as a pair of streams and during reverse orientation of Transcendence along sunlight into air space.
10. It is this two fold Transcendence phenomenon of pair of streams of reach from air space to Sun and return along Sun light back to air space, which on chase shall be bringing us face to face the birth – rebirth phenomenon within frames as a cosmic phenomenon and without frames as a universal phenomenon.

Day 3: (54, 28)

=====

It would be a blissful exercise to chase artifices pair (54, 28) parallel to NVF values pair (54, 28) with illustrative formulation pair (Sun, Air) to comprehend, appreciate and to imbibe and to have insight about this pair of artifices and about illustrative pairs of formulations, in terms of the group of words compositions of NVF values 54 and 28 respectively.

Here are reproduced these groups of formulations from 'new testament'.
