

Vedic Mathematics, Science & Technology

FOUNDATION COURSE

Chase steps **phase – 4**
Along Transcendental formats

Introductory

1. We enter second phase of section – 2 of part – 1
2. Part – 1 as Systems foundation. It runs over two sections.
3. Section – 1 of part – 1 as a focus upon ‘Installation of Shiv Lingum in creator’s space’ while section – 2 of part – 1 as a focus upon ‘Systems foundation’.
4. Section – 2 / ‘Systems foundation’ as a pair of phases namely phase – 3 ‘Along manifestation formats’ and phase – 4 ‘Along Transcendental formats’.
5. During phase – 3 ‘along manifestation formats, chase steps cover the aspects no ‘I’ Hyper cubes formats ‘II’ Measuring rods ‘III’ Measuring units.
6. Now we enter phase – 4 ‘along transcendence formats’, the coverage during present phase is going to be about the aspects (i) Transcendental ranges (ii) Transcendence reach (iii) Self referral formats’
7. Systems foundation chase along manifestation formats as not to focus that the manifestation format of hyper cubes, as such have ‘impurities’ which deserve to be transcended to have ‘purification’.
8. During present phase, as such the chase steps are aimed to reach at systems foundation for attaining purification from ‘impurities’ of manifestation formats of hyper cubes, this as such takes us to a shift from four folds formats to five folds formats.

Weeks 10 to 12

Week – 10 Transcendental ranges

Introductory

1. Transcendental ranges are of five folds,
2. This as such focuses upon:
 - i. Artifice 5
 - ii. 5-space
 - iii. Hyper cube 5

- iv. 5-space content
 - v. Transcendence at origin fold
 - vi. Reach at base of origin fold
 - vii. Transcendence area
 - viii. Reach at middle of transcendence area
 - ix. Transcendence area as self referral area
 - x. Transcendental domain
 - xi. Transcendental domains
 - xii. Transcendence within Transcendental domain
 - xiii. Transcendental order
 - xiv. Transcendence within Transcendental order.
 - xv. The transformation of Transcendental order as self referral order
3. For chase of above and connected features, the chase steps during this week are being settled as :
- | | |
|---------------|---------------------|
| Chase step 28 | Five folds set up |
| Chase step 29 | 5 x 5 matrix format |
| Chase step 30 | Artifice 5 |
4. The above settlement of three folds steps is parallel to the set up of 3-space in the role of dimension of 5-space
5. This as such takes care of single, double and all the three dimensions, but in reverse order and that way the start is with the set up of format and features because of all the three dimensions, to be followed by the format and features of a pair of dimensions and finally because of single dimension.

*

Chase step 28 Five folds set up

1. Five folds range (1, 2, 3, 4, 5), as such provides a format for two fold transcendence, firstly from 5-space to 3-space as dimensional order and secondly from 3-space to 1-space being the dimension of dimension of Transcendental domain (5-space), which otherwise here is in the role of base fold of the origin fold
2. In general the five fold range (n, n+1, n+2, n+3, n+4) as well shall be manifesting a transcendence path of two fold phases, of which the first phase to take us from n-space as dimension to n + 2 space as domain, and ahead n + 2 space as domain to n + 4 space as base of origin fold
3. As a reverse process the transcendence phenomenon of first phase is going to be of ascendance from base fold through origin fold to domain and the same ahead as a second phase would amount to ascendance from domain fold to boundary fold to the dimension fold.
4. One may have a pause here and take note that the transcendence phenomenon, as such is of a pair of orientations.

5. The two fold transcendence process as per the orientation may be designated as ascendance from base fold reaching dimension fold and the other way round the transcendence to take us from the dimension fold to domain fold.
6. One may further have a pause here and take note that the spatial order are the origin fold in respect of transcendence range (1, 2, 3, 4, 5) and in generality the order of the origin fold being of 1 degree higher than that of the domain fold, shall be characteristically marking its presence while transcendence of pair of orientations takes place through the origin fold.

*

=====

Chase step 29 5 x 5 matrix format

=====

1. The pair of orientations of the transcendence phenomenon during transcendence through origin fold and sequential reach ahead, as well as backward) from origin fold to base of origin fold are back to domain fold as such, at a time is to be of single duration.
2. One may have a pause here and take note that this ‘one’ way transcendence progression with NVF (one way) = 83 = NVF (Follow), emerges a command for the chase of this phenomenon.
3. Here it also would be relevant to note that NVF (Way) = 49 = NVF (Axis) will further help us comprehend, appreciate and to imbibe the format and values of one way transcendence path progression.
4. It will help us comprehend that the ‘way’ becomes the manifested ‘way’ for the ‘axis’ integrating and synthesizing as ‘domains’.
5. The spatial order of creator’s space (4-space), as such shall be manifesting transcendence path as of format and features of 5 x 5 matrix format.
6. One may have a pause here and take note that the reach from domain fold to base fold to origin fold, as such is going to be of the sequential role of all the three dimensions, pair of dimensions and single dimension of the dimensional frame.
7. Further here it also would be relevant to note that pair of dimension (m, n) synthesized $n + 2$ of the format and features of ‘domain fold’.
8. One may further have a pause here and take note that the pair of dimensions of spatial order of 4-space shall be synthesizing as contented domain as transcendence path axis leading to and providing a reach at base fold, as the fifth fold.

*

=====

Chase step 30 Artifice 5

=====

1. The contented domain as Transcendental axis attaining reach at the base fold, the fifth fold as such shall be manifesting artifice value 5.
2. One may further have a pause here and take note that the NVF (Straight) = NVF (2-space).

3. One may have a pause here and permit the transcending mind to continuously remain in prolonged sitting of deep trans to glimpse and to be face to face the format and features of the following

- (i) NVF (Base) = $27 = 3 \times 3 \times 3 = 3^3$
- (ii) NVF (Base) = $27 = \text{NVF (Half)}$
- (iii) NVF (Sun) = $54 = \text{NVF (Half, Half)}$
- (iv) 4-space is a spatial order space
- (v) 5-space is a solid order space
- (vi) NVF (Transcendence) = NVF (Transcend half)
- (vii) NVF (Transcendental) = NVF (Transcendence area)
= NVF (Transcend half area)
- (viii) NVF (Transcendence) = NVF (Self referral)

*
