

Vedic Mathematics, Science & Technology Teacher Course

ABOUT THIS COURSE

This Course, as the Title well indicates, is for Vedic Mathematics, Science & Technology Discipline of Knowledge for High and Higher Secondary Schools Level.

High and higher secondary level schooling is of four years graded duration. Teaching of Values of knowledge of Vedic Mathematics, Science & Technology Discipline, as such is parallelly phased the sequential focus over four year duration remains upon 3-space, 4-space, 5-space and 6-space VMS & T values respectively.

This course has been designed as of one year duration phased as four quarters with each quarter devoted to one specific year of schooling of the Discipline of VMS & T. First quarter is to be devoted to the teaching values of 3-space VMS & T. Second quarter will be all about teaching values of 4-space VMS & T. Likewise, third & fourth quarters respectively are going to be devoted to 5-space VMS & T and 6-space VMS & T in sequential continuity of 3-space VMS & T and 4-space VMS & T.

Vedic Mathematics, Science & Technology (VMS & T) is an Ancient Discipline of Knowledge, it has its own inherent organization format, as well as the unfolding process. However,

in the present course it has been attempted to put in present day communication terminology. It is this aspect, which that way, becomes the first point of attention of which one is to be conscious at the outset of the course itself. With it, naturally, the importance of Conceptual & Technical Terms comes to forefront. This being so, from Day 1 of the course one shall start compiling One's Own Dictionary of Conceptual and Technical Terms of VMS & T.

Further, it would be advisable that one shall have a separate Section of One's VMS & T Dictionary for compilation of values of VMS & T. This section to have separate sub-sections respectively for 3-space, 4-space, 5-space and 6-space VMS & T.

Still further, One's VMS & T Dictionary shall also have a Section for tabulation of values of Art of Teaching VMS & T.
