

**Vedic Mathematics, Science & Technology
Teacher Course**

By Dr. S. K. Kapoor

LET US REVISIT WHAT WE HAVE LEARNT

1. Let us revisit what we have learnt to learn after this stage.
2. Let us revisit to consolidate what we have learnt.
3. First of all let us tabulate conceptual and technical terms.
4. One way would be to reach at lesson wise of new conceptual and technical terms being availed by the subject content of the lesson.
5. These new conceptual and technical terms shall find place in one's own TCV dictionary.
6. Further, the visit to the subject content of the lesson shall be from the point of view of Evaluation Tests to reach the students shall be subjected to next.
7. The Evaluation Tests shall be in the form of short questions to be answered.
8. Some exercises based on basic values and first principle of the subject, as well, may be included in these Evaluation Test for the students.
9. Here teacher may also availed an opportunity to design their teaching lessons for the regular teaching classes.

10. One may organize subject values as per one's own wisdom and experience for the best way to educate young minds are the first principle.
11. It is the comprehension bliss of young mind which shall way with the teacher while taking a class.
12. Some model Evaluation Test etc. would be taken up after covering subject content of all the four quarter.
13. Here and after subject content lesson of second quarter covering 4-space VMS & T, are be taken up.

FOURTH QUARTER

6-SPACE VMS & T

1. DocIV001 to DocIV042 are about subject content of 6-space VMS & T.
